

# RDC Concrete

We Promise

We Deliver

## RDC NatureCrete

**RDC Naturecrete** is low fines concrete solution designed for recharging

*the ground water table level. Water does not flow over this concrete but percolated in to the ground again due to its pervious design thus reducing the run off and flooding. High cement paste and interlocking pattern of aggregates ensure long service life of the pavement.*

**Special features:**

- ❖ Low fines permeable concrete
- ❖ Long service life

## Applications

- Open parking spaces
- Rain water harvesting projects
- Landscaping area
- Driveways and Walkways

## Advantages

Easy drainage of water

Prevents run off water and flash floods

Green points for Green Building certification

Replenishes ground water table

## Technical Properties

Strength

Up to 10 Mpa

Voids percentage

10-30

Compaction

Light roller compaction

Pumpable

No

*\*Properties can be customized to suits customer's need*

Ensure early and adequate curing

Do not dose extra water or admixture

Wash the surface from time to time to prevent clogging
